

# **RCCSB - Center Console Sub Box**

## **Tools Needed For Installation**

Drill with 1/4" Drill Bit  
Phillips Screwdriver  
Wire Crimpers / Strippers

## **Installation Instructions:**

If the subwoofer is not already mounted in the box do so now, drill a 1/4" hole in the back of the box to run the speaker wire out of the enclosure  
\*Note\* Sealing the hole to prevent air leaking will improve sound quality

Run the subwoofer wire to the location that you are mounting your amplifier  
Drilling a 1/4" hole to run the wire through the plastic may be necessary

Place the box on the passenger floor of the rhino speaker facing out

Place your hand over the upper corner of the sub box and slide into place over the center hump

Using the supplied hardware locate the factory holes and tighten the screws to mount the Subwoofer Console. After securely mounting, hook up the speaker wires to the amplifier
