- Mounting Depth: 4-5/8" (11.8cm)
- Power Handling: 300 RMS/600 Peak (W)
- Impedance: 4 ohm

Please read and understand these instructions completely before installation to avoid possible injury, or damage to the accessory or vehicle.

## TOOLS NEEDED FOR INSTALLATION

- Wire Crimpers
- Drill with 1/8" Drill bit
- Scribe or Marker
- Wire Strippers
- #2 Phillips Screwdriver

## INSTALLATION NOTES

The use of a thread locker is recommended on all screws to prevent loosening due to vibration.

## WARRANTY INFORMATION:

All SSV Works enclosures are covered by a limited lifetime warranty against defects in material or workmanship. All SSV Works Electronics are covered by a limited 1 year warranty against defects in material or workmanship. Labor for replacement of defective components is not covered. All SSV Works Speakers are covered by a limited 1 year warranty against defects in material or workmanship. Contact SSV Works for further warranty information.

1. Place the SSV-10M in the enclosure to verify fit and center the subwoofer in the enclosure cutout.
2. Mark the 8 mounting holes with a scribe or marker
3. Pre-drill the 8 mounting holes with the 1/8" drill bit
4. Connect and install the speaker into the enclosure using the #2 Phillips screwdriver (be sure to connect the "+" speaker wire to the "+" terminal on the speaker and the "-" speaker wire to the "-" terminal on the speaker) (NOTE: All 8 screws must be installed and tightened to properly seal against the enclosure and ensure the best sound)
5. Route the speaker wire away from any moving parts and any sharp metal, then connect to the amplifier

## WIRING INSTRUCTIONS

For proper sound, ensure the speaker polarity is correct connect the "+" to the "+" and the "-" to the "-" from the speaker wire to the amplifier. If using with an SSV Works complete system refer to the amplifier wiring instructions for more detailed wiring information.
